

Physiolaser olympic

The worldwide
leading laser
system

The universal laser for all indications of Low Level Laser Therapy, all grades of auriculomedicine and acupuncture

The fully programmable Physiolaser olympic is a high-end laser that offers everything you need for comprehensive therapy and diagnosis.

Designed for high duty therapy, it is used successfully in many medical fields (from acupuncture to Veterinary). The previously unavailable range of functions in this compact package make it the worldwide leading laser system.

Compact and lightweight, the Physiolaser olympic is made for mobile operation. It is easy to use and can be upgraded easily using an SD-Card, so you're always up-to-date. The Physiolaser is an "open system" and is distinguished by its mobility - it truly is a laser for experts.

The Physiolaser offers more than any other laser device on the market.

All known frequencies and various therapy programs are integrated. The Physiolaser features free frequency selection and 10 storage spaces. Time, performance, and joule release can be freely selected, with the device calculating the correct parameters automatically.

- Designed for high performance therapy
- Mobility through rechargeable batteries
- Features all known frequencies and various therapy programs
- Comprehensive diagnostic investigations possible
- Free choice of frequencies
- Excellent for a wide variety of applications, from musculoskeletal disorders to internal diseases and dermatological conditions

Available attachments include:

- **Multicuster Probe** for highly effective treatment of musculoskeletal conditions
- **Single Laser Probe** - excellent for ear and body acupuncture
- **Diagnostic Probe**

The PhysioLaser is equipped with two laser outputs to which any of the available attachments can be connected.

The special laser output with precision lens for high beam density enables deep irradiation (muscles, trigger points, joints).

- Freely selectable frequencies, 200 memories or more
- Continuous beam, universal frequency
- 7 NOGIER frequencies (exponentiated)
- 7 Bahr 1 and 7 Bahr 2 frequencies
- Chakra frequencies
- REININGER frequency system, complete
- 10 Meridian frequencies acc. to REININGER
- Power/time/energy calculation (automatic)
- Comprehensive diagnostic module (three levels)
- and much more ...
