Join Neil Gumenick for an in-depth introduction into the heart and soul of Classical Five-Element Acupuncture

Most practitioners recognize that there is much more to understanding and treating patients than categorizing them according to symptoms and syndromes. How, then, do you heal the emotions, mind, and spirit, as well as the body, with acupuncture?

Knowing the “spirits of the points” avails you little unless you know exactly how and when to use them and how to conjoin them with the underlying imbalance. This teaching provides a theoretical and experiential bridge that connects the promise and the fulfillment of acupuncture’s potential for integral healing.

Classical Five-Element Acupuncture, in the Worsley tradition, is one of the most complete, comprehensive, and far-reaching systems of medicine in the world. There are no shortcuts or magic formulas. You will not be able to fully practice this system after one weekend, but you will learn to identify and resolve potentially life-threatening energetic blocks, any of which, until removed, will hinder or prevent your patient from getting well. You will learn to develop and use your senses, pulse taking, and rapport skills as powerful diagnostic tools, and you will come to understand and manage your patients in a whole new way.

The seminar will cover:

- The mental and spiritual levels of the Five-Elements, Twelve Officials, and specific acupuncture points
- Diagnosing the needs of the mind and spirit
- How this system addresses physical pain and illness
- Clinical interaction with patients
- Rapport skills and patient management
- Pulse diagnosis within the Classical Five-Element System
- Detecting and resolving life-threatening energetic blocks
- Treatment planning

Hours of Training: 9:00am - 6:00pm Saturday and Sunday with a 1.5 hour lunch break each day

CEUs/PDAs: NCCAOM Approved for 15 CEUs/PDAs

Classical Five-Element Acupuncture: Beginning the Journey™

Testimonials from recent "Beginning The Journey..." Seminars:

"Best workshop in years. 5 Elements making sense, finally." - Marcy Mallory, L.Ac.

"Amazing! Neil's seminar is inspiring and delves into Classical Acupuncture in ways that TCM doesn't touch upon. Classmates are integrated into discussion and improv patient/practitioner interactions and rapport. My mind has been opened to an entirely new way to treat by truly treating the patient as a whole in body, mind, and spirit." - Lindsay Kohn, Oriental Medical student

"Neil is a wonderful lecturer - engaging, knowledgeable, and always very interesting" - Denise D'Fantis, L.Ac.
